

# 112 Old Wharf Septic Improvements Parking Schedule

## Westside

**Days 1 Thru 10** – While the septic system for Westside Units 11-18 and C1-2 is installed parking will be limited to the front of the Westside parking lot. See attached highlighted plan.

**Days 11 Thru 16** - While the septic system for Westside Units 7-10 is installed parking will be limited to a small section at the front of the Westside parking and the rear of the parking lot. See attached highlighted plan.

**Days 17 Thru 24** – While removal of parking lot, installation of conduits, installation and grading of subbase and installation of binder asphalt course take place no parking will be available for the Westside parking lot. All parking will take place in the Eastside parking lot. We will assist in helping residents get items into their homes if necessary. After Day 24 Westside parking lot will be fully available for parking again.

## Eastside

**Day 25 Thru 29** - While the septic system for Eastside Units 13-16 is installed parking will be limited to the front of the Eastside parking lot. See attached highlighted plan.

**Day 30 Thru 34** - While the septic system for Eastside Units 9-12 is installed parking will be limited to the front of the Eastside parking lot. See attached highlighted plan.

**Day 35 Thru 44** - While removal of parking lot, installation of conduits, installation and grading of subbase and installation of binder asphalt course take place no parking will be available for the Eastside parking lot. All parking will take place in the Westside parking lot. We will assist in helping residents get items into their homes if necessary. After Day 44 Eastside parking lot will be fully available for parking again.

## Asphalt Top Courses

When the Westside asphalt top course is installed, all parking will take place in the Eastside parking lot for 3 days after the installation. This procedure will be the same but reversed for the Eastside paving.
